

Jack's most popular programs...

CREATING PREDICTABLE FUNCTIONAL AND ESTHETIC CERAMIC RESTORATIONS.

This program utilizes a modular approach of didactic, photographic and video that encompasses the entire protocol a dentist and team needs, from the time the patient schedules for a consultation through to final delivery of the restorations. There are 8 sections or modules covered:

- a) Diagnostic skills and smile design
- b) Ceramic restoration design and preparation
- c) Impression techniques – both analog and digital
- d) Custom provisional restorations
- e) Material options
- f) Laboratory considerations and communication
- g) Cementation fundamentals and techniques
- h) Marketing utilizing the completed case

The program was designed to be a full day didactic lecture or it can be condensed into a ½ day or evening program. There is also the option to include a hands-on component.

THE CURRENT STATE OF ADHESIVES, COMPOSITES, CERAMICS AND CEMENTS.

This didactic program utilizes a logical modular approach for sorting through the material confusion. The lecture will cover what are the currently available materials available, how to classify them, and where and when to utilize them based on the clinical situation. This lecture can be a ½ day or evening program.

MASTERING SMILE DESIGN.

The key to a successful contemporary esthetic dental practice is mastering smile design. This program will cover all the necessary requirements and techniques to create a predictable smile design, which will be utilized to develop the final outcome, be it a simple anterior makeover or a complex full mouth reconstruction. Techniques such as digital templates, computer simulations, wax-ups and mock-ups and more will be covered. This program can be a ½ day or an evening program.

Meet Jack...

Dr. Jack Ringer lives to teach on the topics of state-of-the-art creativity in esthetic, preventive, general and reconstructive dentistry. As a private practice dentist in Orange County, California, for over 30 years, Jack has practiced what he preaches, changing the lives of his

patients every single day in the office, honing his skills, integrating the latest technology and figuring out the best way to teach his peers how exceptional dentistry – whether cosmetic or bread-and-butter – can be and should be.

While Jack is a busy dental practitioner by trade, he truly is a teacher at heart and would simply travel the world doing his part to raise the standard of excellent care in the profession of dentistry. His educational style empowers you with knowledge from the beginning of the

PRESENTATIONS THAT ARE EASY TO UNDERSTAND AND BEAUTIFUL.

"I first met [Jack Ringer] where he was an educator in cosmetic dentistry. He was very helpful and presented things in a style that was very easy to understand... Each time he is well prepared with beautiful photography and his presentation is excellent. I always walk away with new ideas after attending and I value what he has to say. I highly endorse him as professional speaker."

MASTER COSMETIC DENTIST, A WHOLE NECKLACE OF "GEMS".

"I heard Dr. Jack Ringer lecture on 'Smile Design'. Informative and interesting enough to stimulate the audience into asking questions... a master cosmetic dentist who shares his knowledge with other practitioners in a very interactive manner. His passion is quite evident as is his relaxed presentation technique, which puts the audience at ease. We are told that if we get one GEM of an idea from a lecture, it is not wasted time. With Jack we get a whole necklace.

CONCISE, PRECISE, AND DOWN-TO-EARTH.

"I have attended at least six lectures given by Dr. Hack Ringer.. they were concise, precise and practical and he delivered valuable information in a down-to-earth, out-going manner. All of the attendees were pleased to receive new valuable information that was applicable... I can think of no higher recommendation that stating that the day after Dr. Ringer's lectures, his information was put into practice in my own office."
